The LingoPen™ was designed with the language learner in mind. This approach emphasizes the need to make content comprehensible while developing academic language skills for students acquiring English as a second language. Using the pen in remote learning or daily classes helps integrate academic language for students and promotes an inclusive learning opportunity that helps students participate with their peers, helping to lower the affective filter while increasing literacy skills.

Instant word translation

More than 20 built-in dictionaries

Complies with social distancing requirements

Supports language learners

Reads text aloud

Great for ESL students

The LingoPen™ is a major technological breakthrough for anyone working or studying an “additional language”. The embedded camera and OCR technology enables instant lookup & translation of words. Other features include a digital highlighter for capturing and storing text, 2GB storage & Voice recorder.

The LingoPen™ supports:

Arabic*, Chinese, English, French, German, Italian, Russian, & Spanish
 *Only one-way translation: English to Arabic

“As an international student, I had to sit in front of my cell phone or PC to look up a web dictionary continuously. Now I can check every new word within half a second. I love the LingoPen™ more than my cell phone.” - **Amazon User**

KEY FEATURES

- Highlight and store text in internal memory to later review
- Multiple accents included
- Upload files to aid revision
- Connect and scan directly to a Windows/MAC/Linux computer
- Use the voice recorder function to help develop your vocabulary and pronunciation
- No additional software required
